APPEAL - APPLICATION FOR NEW MARKING

An examination candidate may appeal in written form about the grading within five weeks of the result being announced. New marking will be carried out.

Assessment of oral examinations, practical training and other performances which are unable to be reassessed, may not be appealed. Only formal errors during the examination may be appealed.

There is no right to appeal against the grade determined by remarking. The decision is final even if the examination grade is of a lower level than the original examination grade.
